

Let's get started...

You will save time from the very first filing.

"I wish I'd done it sooner. I really wish I'd done it sooner."

—Kristie Van Pelt, Midwest Family Mutual

This 100% different from other IT projects

It's fast.

You'll be up and running very quickly - typically in less than a week.

It's easy.

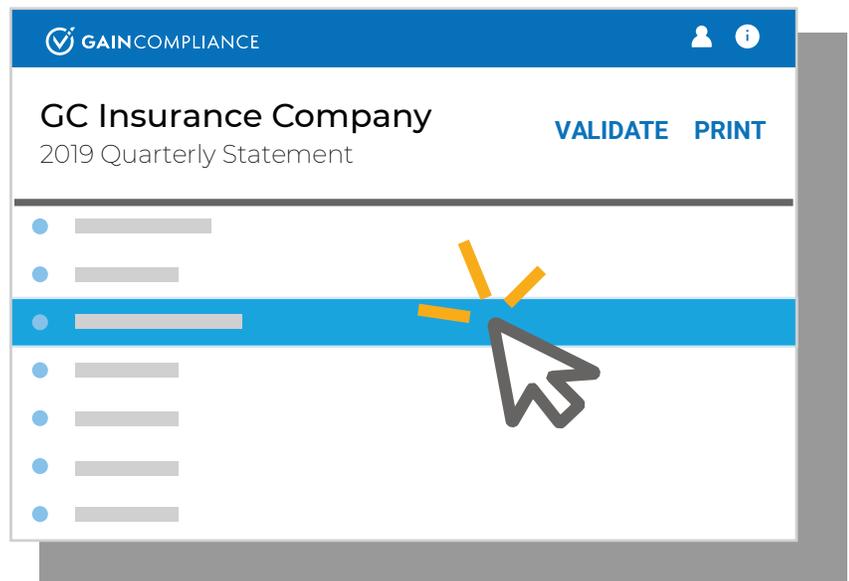

Gain handles all of the setup. You send us your last filing, and we take care of the rest. All of it.

It's better.

Not only does Gain save you time in your first filing, but we also provide peace of mind in knowing that you're compliant with NAIC regulations.

It's the beginning of a great relationship.

You'll love the ongoing support from our dedicated and experienced stat. filing support team.

What are you waiting for?

How onboarding works in five easy steps:

1. We hold an introductory kickoff call in which we discuss the setup process and timeline.
2. You provide us with the zip file of your most recent filing.
(And, with this, your part is now complete...We do all of the rest.)
3. We handle all setup, including importing historical data, setting up text and tables for Notes, and rolling forward data in preparation for your next filing.
4. Quality control - we compare your filing to best practices and the latest NAIC guidance, ensuring you are positioned for success.
5. Training - we use your filings to train you and your team.
Then we hand the keys over to you and you start drafting.

Our commitment to outstanding customer service doesn't end there. If you have any questions about any aspect of the filing - give us a call.

Gain is the fastest growing provider of Annual Statement software. Visit gaincompliance.com and learn more.
