

# Financial Reporting Deserves Modern Software

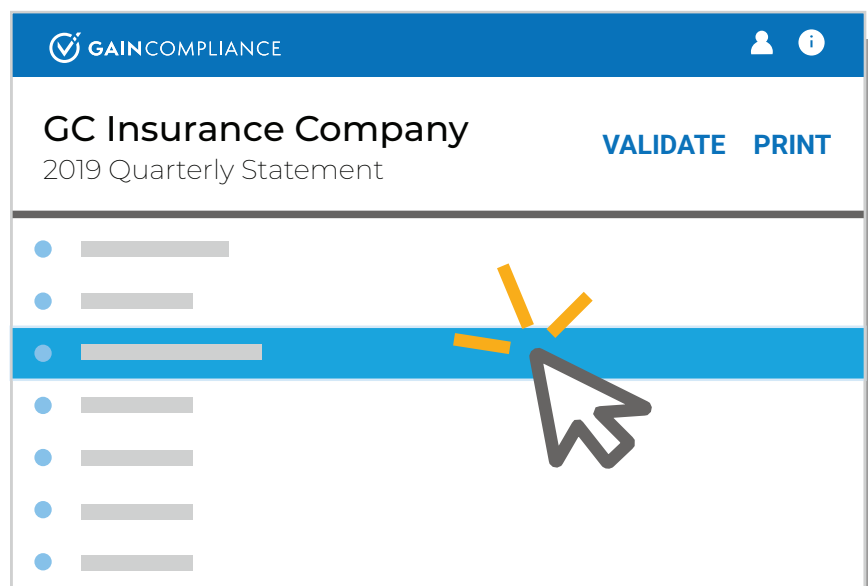

**Introducing...**the first new Annual Statement Filing Solution in almost two decades.

Since our 2016 launch, Gain Compliance has been working on one goal: **To build the best software solution for Statutory Financial Reporting teams.**

**Focus on your data.  
We'll take care of the rest.**

Gain Compliance offers the fastest-growing solution in the marketplace. Our fresh approach eliminates the headaches of your NAIC Statutory Filings.

# It's been years in the making.

We think you'll agree that it's been worth the wait.

## Our solution is different and, well, better.

With Gain Compliance, you'll experience:

- **Software designed specifically for financial reporting teams.**  
Finally, a modern interface specialized for the Statutory Financial reporting process.
- **Unparalleled performance.**  
Software is instantaneously responsive – filing-wide validations run in real-time across all schedules.
- **The tools you need, all in one place.**  
Gain offers a completely integrated Notes experience including a modern text editor, intelligent roll-forward of data and text, and automated management of quarterly and annual filing details
- **The ability to leverage multiple monitors during drafting and review.**  
Navigate easily within your filings: open any Note, schedule, NAIC instruction, or your validation report in a new browser tab to compare and gain context across filings.

	Current Year to Date	Prior Year to Date	Prior Year Ended December 31
